"WASHINGTON, April 20 .- The battleships Virginia, Nebraska and Georgia of the Third Division of the Atlantic fleet today were ordered to sail Friday from Boston for Tampico.

Secretary Daniels said today that Admiral Badger's fleet would be divided when it reached Mexican waters, part of it going to Tampico and the rest to Vera Cruz.

SAN FRANCISCO, April 20.-A movement of troops to the California-Mexican border began this forenoon with the dispatch of Troop D of the First Cavalry from the Presidio at Monterey to Calexico, in the Imperial valley. At the same time detachments were sent from Fort Rosecranse to Tecate, about 20 miles south of San Diego.

MARE ISLAND. April 20 .- Orders were received at Mare Island this morning for the cruiser Maryland to depart as soon as possible for Mexican waters. The collier Jupiter is to sail on April 22. The cruiser South Dakota will arrive tomorrow morning and after taking on 300 marines will leave at once for Mexico. The Jupiter is to carry 300 marines and the Maryland is to carry 300. The Cleveland is to leave here on April 25. It is likely that the cruiser Buffalo will take on a quantity of stores for the fleet.

PENSACOLA, Fla., April 20.—Orders were received early today directing the flotilla of twenty torpedo boat destroyers here to put to sea this afternoon, meeting Rear Admiral Badger's fleet in the Gulf and accompanying it to Tampico. Officers said the destroyers, with two tenders, were ready to depart.

# BULLETIN.

HOUSTON, Texas., April 20.—The Second division of the United States Army here on a practice march, today began a hurried movement back to Texas City and Galveston, on orders received from Washington at 3 o'clock this morning.

The plan was to have the Fifth Brigade, numbering 5000 men, ready for sailing to Vera Cruz by Tuesday in case a troop movement has been ordered.

Their march here from the coast last week indicated that the men are naruy, no case of sections illness having anneared.

By daylight the bridage was boarding trains. The quick movement developed the fact that the trains made up, except for hooking on the engines, had been held in readiness for just such

The Fifth comprises the Fourth, Seventh, Ninth and Eighth and is in command of Colonel Duriel Coraman.

Its station is at Fort Crockett, Gulveston, while the remainde

med division is stationed at Texas City.

Here are the men on whose shoulders rest responsibility for future events in the Mexican crisis: Top, left to right, Dictator Huerta, Rear Admiral Mayo, in command of the United States ships at Tampico, and President Wilson, who says there will be no "war." Center, left to right, Pancho Villa and Carranza, who were in consultation on the crisis today, and Secretary of War Garrison. Below, left to right, Secretary of the Navy Daniels, Rear Admiral Badger, in command of the Atlantic fleet on the way to Tampico, and Major General Leonard Wood, who will have command of the troops at the border.

### BULLETIN.

VERA CRUZ, April 20.—Commander Charles F. Hughes, chief of staff of the United States Atlantic fleet, today called on General Gustavo Maas, commander of the federal troops at Vera Cruz, and on the commander of the port and instructed them to order all American merchant vessels out of the harbor.

All American and all foreign women have been asked by Consul Canada to take refuge on vessels in the harbor, preferably on board the Mexico of the Ward line and the Esperanza, which has been chartered by the United States navy.

Commander Hughes then went on board the Spanish and the British warships anchored off this port and informed their commanders of his action.

William W. Canada, the American consul here, is making arrangements to have foreigners taken on board the merchant vessels should necessity arise.

WASHINGTON, April 20.—President Truson today answered Huerta's defiance by asking Congress, assembled in joint session, for approval to "use the armed forces of the United States in such ways and to such extent as may be necessary to obtain from General Huerta and his adherents the fullest recognition of the rights and dignity of the United States."

The President did not ask for any appropriation of money at this time nor for authority to call out the National Guard.

"There can be no thought of aggression or of selfish aggrandisement," declared the President to the sober-faced throng of sepators and representatives which packed the hall of the House.

# Would Not Be Forced Into War

"A joint resolution justifying the employment of the armed forces of the United States in enforcing certain demands against Victoriano Huerta:

"Resolved, By the Senate and House of Representatives in Congress assembled, that the Fresident of the United States is justified in the employment of the armed forceof the United States to enforce the demands upon Victoriano Huerta for unequivocal amends to the government of the United States, for affronts and indignities committed against this government by General Huerta and his representatives."

It was exactly three p. m. when the assembled Congress and crowded galleries broke into a cheer as the President was introduced by Speaker Clark. The outburst subsided into a solemn quiet as the President, in a low but penetrating voice begun his address.

### APPLAUSE PUNCTUATES MESSAGE.

A hush fell over the crowded chamber and the legislators listened in close attention as the President proceeded. There was loud applause when he said he felt it his duty to sustain Rear Admiral Mayo. There was intermittent applause during the rest of the reading.

When the President referred to the use of the armed forces of the United States, the Democrats again applauded. Republican Leader Mann and Progressive Leader Murdock and others on their side did not join in this, nor in the applause that marked the end of the reading.

When the President concluded at 3:12 p. m., the senators immediately returned to their chamber to take up the same reso-

lution as had been introduced in the House. President Wilson laid the Mexican situation before Congress

today in these words: "Gentlemen of the Congress:

"It is my duty to call your attention to a situation which has arisen in our dealings with General Victoriano Huerta at Mexico City, which calls for action, and to ask your advice and co-operation in acting on it.

## PAYMASTER IS ARRESTED.

"On the 9th of April a paymaster of the United States ship Dolphin landed at the Iturbide bridge at Tampico with a whale boat and boat's crew to take off certain supplies needed by his ship, and while engaged in loading the boat was arrested by an officer and squad of men of the army of General Huerta.

"Neither the paymaster nor any one of the boat's crew was armed. Two of the men were in the boat when the arrest took place and were obliged to leave it and submit to be taken into custody, notwithstanding the fact the boat carried.

# If Coffee Don't Agree

Much of today's nervousness, indigestion, languor, kidney and liver trouble, come from indiscretions in eating and drinking, so commonplace that they are seldom considered till Nature pulls one up with a sharp jerk.

More often than is suspected, coffee is the cause of these troubles.

A simple, easy way to discover the real cause and relieve one's self of a lot of discomfort is to quit coffee for ten days and try

This beverage contains none of the coffee drugs (caffeine, tannin, etc.) which are responsible for many human ailments, big and little. Postum is a food-drink made from prime wheat and a bit of molasses. It is pure and contains only the wholesome goodness of the grain.

Postum comes in two forms:

あり、打断を

Regular Postum—must be boiled. 15c and 25c packages.

Instant Postum—a soluble form. A teaspoonful stirred in a cup of hot water dissolves quickly and makes a most delightful beverage, with cream and sugar added to taste. 30c and 50c tins.

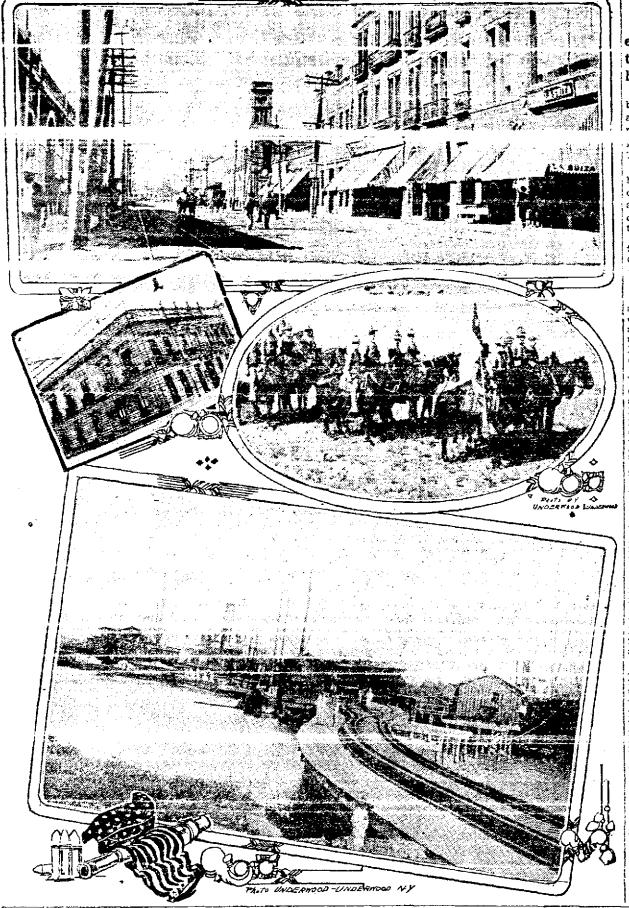

The cost per cup of both kinds is about the same.

## RELEASE AND APOLOGIES.

"The officer who made the arrest was proceeding up one of the streets of the town with his prisoners when met by an officer of higher authority, who ordered him to refure to the landing and await orders, and within an hour and a half from the time of the arrest orders were received from the commander of the Huerista forces at Tampico for the release of the paymaster and his men.

"The release was followed by apologies from the commander and later by an expression of regret by General Huerta himself. General Huerta urged that martial law obtained at the time at Tampico, that orders had been issued that no one should be allowed to land at the Iturbide bridge and that our sailors had no right to land there.

## NO NOTIFICATION GIVEN.

"Our naval commanders at the port had not been notified of any such prohibition and even if they had been the only justifiable course open to the local authorities would have been to request the paymaster and his crew to withdraw and to lodge a protest with the commanding officer of the

"Admiral Mayo regarded the arrest as so serious an affront that he was not satisfied with the anologies offered, but demanded that the flag of the United States be saluted with special ceremony by the military commander of the port.

## INCIDENT NOT TRIVIAL.

"The incident cannot be regarded as a trivial one, especially as two of the men arrested were taken from the boat itself—that is to say, from the territory of the United States; but had it stood by itself it might have been attributed to the ignorance or arrogance of a single offense. Unfortunately, it was not an isolated case.

'A series of incidents have recently occurred which cannot but create the impression that the representatives of General Huerta were willing to go out of their way to show disregard for the dignity and rights of this government and felt perfectly safe in doing what they pleased, making free to show in many ways their irritation and contempt.

"A few days after the incident at Tampico an orderly from the United States ship Minnesota was arrested at Vera Cruz, while ashore in uniform to obtain ship's mail, and was for a time thrown into jail.

## VILLUL DISTANCE WITHERIN

"An official dispatch from this government to its embassy at Mexico City was withheld by the authorities of the telegraph service until peremptorily demanded by our charge d'affaires in person. So far as I can learn such wrongs and annoyances have been suffered only to occur against representatives of the United States. I have heard of no complaints from other governments of similar treatment.

## U. S. SINGLED OUT FOR INSULT.

"Subsequent injunctions and format appropries of not and could not alter the popular impression, which, it is possible, it had been the object of the Huertista authorities to create, that the government of the United States was being singled out and might be singled out with impunity for slights and affronts in retailstien for its return to recognize the pro-

### PARLEY IS LENGTHY.

"The terms was later acknowledged when diplomatic parleurs were begun between the sub-secretary of fereign affairs in Mexico, the minister being absent at that date, and ontinued until now.

"When he became aware that the American Government supported the request of Rear Admiral Mayo relative to a salute of the American flag, which had not been insulted, he pro-posed to show his good will toward the American people though he did not think such a request was just, proposing that the flags of the two nations be hoisted and saluted reciprically and simultaneously.

"The American Government did not agree with that idea, but insisted on Rear Admiral Mayo's request, giving assurance that according to international practice the salute would be bv · the salute to the American flag. HUERTA IN REFUSAL.

tenses of General Huerta to be regarded as the constitutional provisional president of the Republic of Mexico.

"The manifest danger of such a situation was that such offenses might grow from bad to worse until something happened of so gross and intolerable a sort as to lead directly and inevitably to armed conflict. It was necessary that the apologies of General flueria and his representatives Should go much further: that they should be such as to attract the attention of the whole population to their significance and such as to impress on General Huerta himself the necessity of seeing to it that no further occasion for explanations and professed regrets should arise.

## SALUTE INSISTED ON: REFUSED.

"I therefore felt it my duty to sustain Admiral Mavo in the whole of his demand and to insist that the flag of the United States should be saluted in such a way as to indicate a new spirit and attitude on the part of the Huertistas.

"Such a salute General Huerta has refused, and I have come to ask your approval and support in the course I now purpose to pursue.

"This government can, I earnestly hope, in no circumstances be forced into war with the people of Mexico. Mexico in torn by civil strife. If we are to accept the tests of its own constitution it has no government.

"General Huerta has set his power up in the City of Mexico, such as it is, without right and by methods for which there can be no justification. Only part of the country is under his control.

"If armed conflict should unhappily come as a result of his attitude of personal resentment towards this government we should be fighting only General Huerta and those who adhere to him and give him their support, and our object would be only to restore to the people of the distracted renublic the opportunity to set up again their own laws and their own government.

## WOULD NOT CONTROL MEXICO.

"But I earnestly hope that war is not now in question. I believe that I speak for the American people when I say that we don't desire to control in any degree the affairs of our sister Republic. Our feeling for the people of Mexico is one of deep and genuine friendship, and everything that we have so far done or refrained from doing has proceeded from our desire to help them, not to hinder or embarrass

"We would not wish even to exercise the good offices of friendship without their welcome and consent. The people of Mexico are entitled to settle their own domestic affairs in their own way and we sincerely desire to respect their right. The present situation need have none of the grave complications of interference if we deal with it prompt. ly, firmly and wisely.

# PRESIDENT COULD ACT ALONE.

"No doubt I could do what is necessary in the circumstances to enforce respect for our government without recourse to the Congress and vet not exceed my constitutional powers as President; but I do not wish to act in a matter possibly of so grave consequences except in close conference and co-operation with both the Senate and House.

"I therefore come to ask your approval that I should

Immediately after returning from the House chamber the Senate went into executive session to consider the president's message.

UNDERWOOD URGES SPEED. Democratic Leader Underwood asked unanimous consent to make statement. A round of applause greeted his request and he said:

"I merely wish to state to the House that the president informs me that it is of the utmost importance that action be taken on the message just delivered today. I wish to ask each member of the House to remain here until a resolution can be passed through the House."

The executive session of the Senate, however, quickly turned to consideration of appointments and the Mexican situation was considered in the foreign relations committee.

# Platform Promise vs. Performance.

Harking back from Huerta to the question of free tolls for coastwise ships through the Panama Canal, we cite a few matters in connection with the Baltimore platform and the speeches by President Wilson following its adoption, not simply for the purpose of "nagging" the executive, but to demonstrate to those who are upholding him in his determination to preserve "national honor" that there is such a thing as keeping faith with one's own; people.

One of the planks in the Baltimore platform contained the following pledge to the American people:

We favor the exemption from tolls of American ships engaged in coastwise trade passing through the Panama Canal. We also favor legislation forbidding the use of the Panama Canal by ships owned or controlled by raplroad carriers engaged in transportation competitive with the Calidi.

Speaking to an audience of 2000 at Washington Park, N. J., Mr. Wilson, the candidate, said:

Our platform is not molasses to catch fles. It means business. It means what it says. It is the utterance of earnest and honest men who irrend to do business along these lines and who are not upor no to see whether their can catch votes with those promises before they determine whether or not they are going to act upon them. Following this statement the candidate made this declaration:

We don't want the railroads to compete with themselves, because we understand that kind of competition. We want water carriage to compete with land carriage, so as to be perfectly sure that you are going to get better rates around the canal than you would across the continent. Mr. Wilson's declaration that platform promises are binding on parties and are not to be treated lightly was endorsed by Secretary Bryan, who said in a public address:

The party platform is binding on every honest man who runs for office on it. A representative who secures office on platform pledges and then betrays the people who elected him is a criminal worse than any embezzler of money.

President Wilson was elected because many voters believed in such by the Democratic party in convention, and cut as large a Make Oakland a Mcdel City. figure in the national contest as any other Mr. Wilson was as familiar with the Hay-Pauncefote treaty before the election as he is now. Mr. Wilson is a reading man, a well informed man. ST night, in the lounge of the Hotel Oakland, a number of persons sat idly, in congenial groups, listening to the after-dinner music. A tall, graceful girl and a man, entered from the dining room, and the man, with some engagement or other. left the girl, who remained sitting alone, interested in the pass-

There was something quite appealing about her. For one thing, her gown was distinctive, a soft green chiffon with perfect lines, and her hair was done in the new "high" fashion that hasn't quite trached California. Everyone noticed her.

Finally one woman remarked to a companion that the girl looked lonely.
"She is charming and I've half a mind to speak to her, she seems so

Just at that moment another woman, nearby, said something to her friends and rose to cross the room and address the girl. "You look lonely," she said, using the words of the other, "won't you

Children's Hospital Managers Decide on Election Instead of Contest.

It has been decided by the board of stragers of the Children's Hospital garden fete, scheduled to take place at

April 27, election day for the queen of the May contest. If was at first planned to conduct a contest, but this has been deemed impracticable and a general elecloin day set instead.

Ballot boxes will be placed in or conenient to each school in Oakland, Berke-Ty and Alameda, and candidates for the honor of the position will receive votes throughout the day. Later, a committee will collect and count all votes, the young lady receiving the highest poll receiving the coveted office. The next highest will be proclaimed as maids of honor. Any young lady between the ages of thirteen and sixteen will be eligible to enter the race, and the ladies ask that the candi-dates at once begin their campaign. THE TRIBUNE will announce throughout the week the work being done, and will publish the winners and their scores on Tuesday morning following the elec-

Another feature of the fete will be the Japanese Tea Garden. Mrs. Theodore Gier will have charge of this attraction, assisted by a bevy of society girls, who will pour. The garden will be set between the main building and the skating rink, and will be lavishly transformed into an Oriental garden with all of the lavish and beautiful settings.
Among the young ladies who will assist

Mrs. Gier will be Miss Blanche Bon-ham, Miss Elsie McMahon, Miss Elsa Gier and Mrs. L. C. Gilbert. They will te gowned in kimonos in keeping with the stage setting.

# SALE OF LIOUOR SHOULD CEASE

Rev. Herbert E. Hays Gives Reasons for Closing the Saloons.

At the Centennial Presbyterian "hatch yesterday morning, Rev. H E. Hays spoke on "The American Saloon" In part he said:

"Woe unto him that giveth his neighbor drink!"—Habakkuk 2:15. The wees of God are upon the saloon business. They always have been, always will be, and always into the liquor habit ourselves; it is infinitely morse to take as our very occupation in life the work of leading others into the hablt.
The laboraterial trouble with the

saloon is found in the kind of goods it sells. These goods are harmful ness cannot be thought of or treated as other lines of business are.

PHYSICAL EFFECTS. The physical effects of the saloon upon the life of the people are deplorable. Alcohol is not a food. It takes 180 glasses of the beer, so widely heralded as a food, to yield as much nourishment as five cents worth of flour. Alcohol is a poison, to be classed with strychnine and

has made the sensible suggestion that the skull and cross bones be put upon alrehol is a narcetic, not a stimulant, It represses the higher functions of the body and stimulates only the lowblood vessels. It causes all living tis-sues to degenerate. Each saloon wills an average of three people every The traffic is a physical curse even to the posterity of those who have anything to do with what it sells. ECONOMIC EFFECTS SMALL.

The economic effects of the saloon are no more satisfactory than the physical. The license fees received are almost a neglible quantity compared with the enormous cost of jail. police force, alms houses, etc., which the saloons entail. The direct cost of strong drink is enormous and worse than wasted, seeing that it harms rather than helps. Our country spends two billions a year for alcoholic drinks, more than it spends for clothing, and our nation is not meanly clad. San Francisco alone spends twenty millions a year for drink. But the loss of wages, and efficient the diverting of money from helpful to hurtful channels, the wasting of drink all make it almost incredible very material relief. It is strange that the American saloon has not bankrupted the nation long ago. POLITICAL SIDE.

feed in the bowels or a sick stomach. Constipation poison move on and out of the saloon upon the life of the people and bile generated in the bowels, instead of being carried out of the system, is reabsorbed into the blood. When this poison reaches the delicate when this poison reaches the delicate plan, and make you feel bright and that dull, sickening headache. Cas- Cascarets, too. The untoward political effects of adepts at corrupting candidates, officials, laws and policies.

The climax is not reached until until we come to moral effects. The

simple taking of alcohol aiways leads to moral deterioration. The surroundings of saloons are usually bad, but naturally so from the distinct moral tendency of the stuff they sell. Other surroundings would not be fitting and do not seem possible. That which leads to sin naturally tends to crime and eighty per cent of all crime in this country is probably justly charged to alcohol and the saloons that dispense it. We are a foolish nation. We try to keep the degenerates and coming here and at the same time allow sin and crime factories to rur here day and night, and that for pay!

in all that time has remained the same, and it is just as satisfying, strengthening and sustaining as it was fourteen years ago -a complete, perfect food, supplying more real, body-building nutriment than meat or eggs, costing much less and much more easily digested. Your grocer sells it.

> Always heat the Biscuit in oven to restore crispness. Two Shredded Wheat Biscuits with hot milk or cream will supply all the energy needed for a half day's work. Deliciously nourishing when eaten in combination with baked apples, stewed prunes, sliced bananas or canned or preserved fruits. Try toasted Triscuit, the Shredded Wheat wafer, for luncheon with butter, cheese or marmalade.
